Images and videos from the Hubble telescope.	Pearl Diver	Throw on your diving helmet, and head into the depths of the sea! Dive amidst shipwrecks and sunken ruins for the valuable pearls, maybe even the elusive black pearl. But watch out for that pesky electric eel!* Ideal for middle school and upper elementary students, grades 3-8.* Addresses number and operations standards established by the National Council of Teachers of Mathematics (NCTM), including:=> Understand numbers, ways of representing numbers, and number systems.=> Understand and represent commonly used fractions.=> Understand fractions as part of unit wholes and as locations on number lines.=> Compare and order fractions,				
Tangrams The freeplay area lets you move the clock hands anywhere on the dial and hear the time. The "challenge activities" include: Set the Clock where you drag the hour hand and the minute hand to the correct settingWhich Time? where you are given the time on a digital clock and you must pick the matching analog clock andHow Long? a more advanced activity where you must set the clock to a target time that is either earlier or later by a certain number of minutes. Science Science Science Class Experiments brought to you by Science House and featuring Science Teacher Dan Menelly, winner of the NSF Einstein Fellowship in Cyberinfrastructure! These videos are 2 to 3 minutes in length and demonstrate the steps of simple science experiments. The experiments are designed to inspire and excite kids of all ages, with very little set-up time and using only low cost materials. So whether you are a public school teacher, private school teacher, or home school teacher; we hope you use these videos and the many more on our website to ignite the scientific passion in your kids. Images and videos from the Hubble telescope.	_ ,
